Modest topline growth of the core business in 2019

Overview of Operating Income

- Net interest income was up 1%, gross yields on loans to customers (including related credit insurance) dropped by 1%
- Borrowing costs increased by 42% - excluding IFRS adjustments on risk loans, interest expense increased by 19% due to timing of refinancing and new facilities
- Operating expenses increased by 10% - this included Goodwill impairments of P38m and other impairments of P6m that are not expected to recur resulting in an increase of cost to income ratio to 45% (2018: 42%)
- Diversification of our funding and reduction of cost remain areas of focus
- There was significant growth in the volume and value of alternative digital channels

Growth in value of alternative channels & Retail deposits

- There was significant growth in the value of alternative digital channels and retail deposits.
Underlying asset quality in key markets is within expected range

**Asset Quality and Provisioning**

- The Group’s cost of risk reduced from 4.1% (FY 2018) to 1.7% (FY 2019) on the back of tightening of affordability rules and focus on collections and recoveries.
- Change in risk appetite and credit score cut off limits were introduced to address deterioration in mobile loan portfolio.
- Certain one-offs did not reoccur in 2019.
- Non Performing Loan Coverage Ratios have been maintained above 85% across all customer solutions.
- We are fully compliant with IFRS 9 and we expect to conclude the automation of Credit scoring in 2020.
- Recoveries experience continues to improve.
